EXPLANATION

At a Special Town Meeting held June 16, 1922, by a motion of F. W. Ely, it was voted to put in a sewerage under the direction of Mr. Arthur W. Dudley, to take care of drainage in the vicinity of Boston & Maine R. R. Station, and that the property of abuttors, benefitted by same be assessed 1% of the Assessors' valuation of their property.

The Selectmen have paid for the above account, but instead of borrowing all the money needed for same, the Selectmen have used from other appropriations which could not be used the past year, namely, state construction accounts, etc., thereby saving interest until such time as the latter appropriations are to be used, when the money will have to be borrowed.

EDWARD PELLETIER, Jr.,
LOUIS O. BOISVERT,
FRED A. COURNOYER,

Selectmen of Greenville.

REPORT OF THE CEMETERY TRUSTEES

Again we make our report on the work done in the cemetery. As in other years we went over the whole cemetery and cleaned up the leaves and raked up the walks, using up what money we had left from last year. We have cut the grass on the perpetual care lots twice and graded up what lots needed it. We put flowers on all perpetual care lots on Decoration Day.

We have tried to keep the perpetual care lots in good condition. Some of the others have kept their lots up, but others have neglected theirs, which makes some spots in the cemetery look bad. We hope that the coming summer some of these neglected lots will be looked after.

V. L. PARKER,
ALVIN GREENE,
E. E. LIVINGSTON,
Cemetery Trustees.

REPORT OF FIRE WARDS

The Fire Wards respectfully submit the following report:

There have been but two alarms for fire during the past year with very slight damage in each case.

According to the vote of the last town meeting the town purchased eight hundred feet of new fire hose and sixteen chemical extinguishers.

The extinguishers were bought in co-operation with the State Forest Fire Warden for forest fire purposes, the State of New Hampshire paying one-half the cost. They are available for all fires throughout the town. A number of them are to be kept by firemen in their homes for emergencies, and all citizens are urged to learn their location in order to get them quickly in case of fire. We herewith print the instructions regarding the fire alarm system of the town with location of boxes.

WILLIAM H. DOONAN,
HARRY R. NUTTING,
HENRY ASH,

Fire Wards.

GREENVILLE FIRE ALARM TELEGRAPH

Instructions for Giving Fire Alarms

Alarms should be given from the box nearest the fire. On each signal box there is a small glass door that holds a key; break the glass, take the key, unlock the signal box, pull the hook way down once only and let go. After giving an alarm, remain at the box and direct the firemen to the fire.

Never open a box except in case of a fire. Never sound an alarm for a brush or grass fire. But in case of either notify one of the Fire Wards. An alarm will be given in the usual way.

Never sound an alarm for a fire seen at a distance. Be reasonably sure there is a fire before sounding the alarm.

Two blows for test will be blown at twelve noon. 1-1 blows, followed by box number, indicate Police Call, one round.

Four blows, thus, 2-2, No-School signal at 8.15 and 12.30. Two blows, after an alarm, indicate that the fire is all out and the companies have been ordered to make up.

Five blows is the call for forest fire.

The Fire Department of Greenville has one district.

AUDITORS' REPORT

We have examined the accounts of the following town officers: Selectmen, Town Treasurer, Water Commissioners, Fire Wards, Cemetery Trustees, Library Trustees, Town Clerk, Tax Collector and School Treasurer for the year ending January 31, 1923, and find them correctly cast and properly vouched.

We find that the Road Agent's bills rendered to the Selectmen correspond with the orders issued to him.

The report of the School Board was audited to June 30, 1922, as the school year ended on that date.

REPORT OF THE SCHOOL BOARD

To the Citizens of Greenville:

We herewith submit the following report:

The School Boards of the Supervisory District met at the schoolhouse on May 19 and the following officers were elected: H. P. Upham, Chairman; Mrs. Hatch, of Wilton, Secretary; A. B. Eaton, of Mason, Treasurer. R. P. Currier was re-elected as Superintendent.

On June 16 graduating exercises were held in the Grammar room. The class, consisting of Louise R. Ashe, Cecile J. Bernier, Alice E. Frost, Alice B. Glidden, Mildred E. Kimball and Lena H. Perley, were awarded diplomas by Supt. Currier at the close of a very pleasing program. Instrumental music by members of the class was interspersed in the program, and the cantata, "Spring Rapture," by Eberhardt and Gaul, was given in a very creditable manner, other members of the school assisting.

Mrs. Alice B. Tolman, as Principal; Miss Mildred Russell, in the Intermediate room, and Miss Sybil J. Green, in the Primary, were the able corps of teachers beginning the school year. Miss Emma Southwick, Music Supervisor, asked for a year's leave of absence, and the arrangement, as noted in the Superintendent's report, has been carried out.

The report of the school census enumerator, William H. Doonan, was as follows: Total number of children between the ages of 5-16, 311; boys 150, girls 161.

Whooping cough has been prevalent, necessitating many absentees and in consequence taxing

the teachers to keep the classes together, but the schools have only been closed one-half day for bad weather. Regular holidays have been observed and the teachers have attended two institutes.

REPORT OF SUPERINTENDENT

To the School Committee of Greenville:

Herewith I submit my fourth annual report as Superintendent of your schools:

We were again fortunate in having no break in the ranks of our teachers. This permanency in a staff of competent teachers has resulted in continued growth and progress in all departments.

A comparison of the enrollment and attendance tables for the last year and the first sixteen weeks of the present year shows a good gain both in enrollment and percent of attendance. The average percent of attendance for last year of 92.29 falls short of the state average for the same year by .82%. However, the percent this year, which is 95.96, is well above the average for the state. School attendance depends very largely upon an ideal, and this ideal seems to be well seated both in the minds of teachers and of parents.

While the work in the intermediate and grammar grades has been carried on with the usual high standard of efficiency especial improvement is to be noted in the work of the children in the primary room. This is a comparison not of the work accomplished by the children in the different grades, but of the work in the same grades covering a period of two years. This improvement is due largely to the growth and added experience of the teacher.

This year general intelligence tests and standardized tests in the various subjects are being given in grades three to eight. The purpose of these tests is to measure the results of instruction and thereby find out the individual deficiencies which furnish a basis for further drill. They also furnish a means

of comparison between the work accomplished by our children and those in other towns and cities all over the country. The tests are given twice each year, thus affording another means of measuring the progress of each child. A progress record card for each pupil is made out for the purpose not only of recording the scores in each subject, but to furnish a visible evidence of the child's improvement. These progress record cards should prove an incentive to children to greater endeavor.

After a lapse of one year in manual training instruction, because of the scarcity of boys in the grammar grades, the work has been resumed under the direction of Mr. Robbins. The boys seem to enjoy the shop work and are busy working on their individual projects. Screens for the protection of the windows in the rear of the schoolhouse are also to be constructed and put in place by the boys.

During the period that the boys are at shop work, Mrs. Tolman is instructing the girls in the art of needlework. The purpose of this course is to teach the girls the common stitches and to assist them in making garments for their own use.

During the absence of Miss Southwick, who has asked for a year's leave of absence from her duties as music supervisor, Mrs. Tolman is supervising the singing in the primary room as well as handling the music in her own room. Miss Russell looks after the music in her room. While Miss Southwick is missed by both teachers and pupils, the above arrangement is working out very satisfactorily.

Because of an apparent shortage of funds last year few new books were purchased. This year, however, has seen the introduction of new geographies, arithmetics, histories, civics books, spelling books and several new readers, both basic and sup-

plementary. These books, which have been published since the war, are adding new zest to the work of pupils.

The continued assistance of the Red Cross in some of the ultra-curricula activities of the school are greatly appreciated. An account of the splendid work accomplished by the dental clinic was given in the report of last year. While nearly every child with defective teeth in the public schools was treated at this time, it is safe to say that a great many need attention this year. In Wilton, where over a hundred children secured treatment last year, it is found that about three-fourths of that number are again availing themselves of the advantages of the clinic. It is to be confidently hoped, therefore, that the clinic will again be available for the children of Greenville. Hot cocoa, the materiels for which are supplied by the Red Cross, adds much to the enjoyment of the cold lunches eaten by children who bring their dinners.

Following is a summary of the report by Dr. Pease of the medical examinations given in September: Number examined: Pupils 69, teachers 3. Number of cases found by examiner: Defective vision 3, skin disease 1, defective teeth 33, hypertrophied tonsils 11, unvaccinated 7, unvaccinated without proper excuse 7. Total number of cases treated since last examination 48.

In conclusion may I express my appreciation for the continued evidence of the loyal support of the teachers and School Board in the work of the schools and for the hearty co-operation of the townspeople.

Respectfully submitted,

RALPH P. CURRIER,

Superintendent of Schools.
